

Shaman's Journey

Sacred Earth Medicine Path - 2024/25

Sacred Earth Medicine Path is a shamanic wisdom school for modern people. Sourced from ancient Earth-based wisdom traditions, it is beautifully adapted for our lives and times. In this year-long inner journey of transformation and healing, participants are empowered to evolve and step fully into their authentic true selves.

The Sacred Earth Medicine Path consists of four 3-day intensive sessions comprised of spiritual teachings, profound experiential processes, and ceremonies in sacred space. Each session is followed by a three-month period of integration and practice that is supported by zoom-meetings, local gatherings, and personal mentoring.
