

# *Shaman's Journey*

## *The Art of Shamanic Journeying*

Indigenous peoples have always had a form of journeying or lucid dreaming, in which they connect with guides, higher intelligence, spirits, ancestors, and wisdom keepers across the veil.

In this altered consciousness state one receives messages, insights, downloads, and guidance for her/his life.

Some peoples use plant medicine to get to that state of communications, others have a powerful practice of simply "going there" through Shamanic Journey.

In this one day workshop you will learn the basic steps for successful Shamanic journeying, how to prepare for journey, ways to remove obstacles that don't allow you to advance your journeying skills, and how to best benefit from journeys.

We will practice a variety of Shamanic Journeys, and visit different realms, to help you improve your journeying skills.

Participants will meet guides and gatekeepers, and receive insights, guidance, messages and gifts from other realms to help them on their life's journey.
